Jacki Purdham

EXPERIENCE

Jacki has a life long history of animal companions including dogs, cats, horses, ducks, rats, ferrets, lizard, snakes, fish, and a frog named Fred. At age 5 she was training her own dogs and was walking the neighbors dogs for fun. At 7 Jacki was competing full time with her first horse and later spent 4 years on the Nebraska race track exercising horses. In 1989, she joined the National

Guard and served her country in Saudi Arabia for 6 months. While there she adopted stray dogs Lady, Bandit, and Dusty of which she trained. After 12 years of duty, Jacki met her husband Charlie and traveled the world while continuing her professional dog training. Jacki is currently a member of the German Shepherd Dog Club of America, American Belgian Malinois Club, and DVG America. She held positions as President of the Grand Bahama Humane Society for 5 years and head of Animal Control/Animal Abuse for 4 years, and is currently the Secretary of South Florida Schutzhund Club. She has interacted with thousands of animals in her years of experience. When she is not working she enjoys spending time with her six dogs at home. She has four rescue dogs that all have tragic stories and 2 Belgian Malinois that she currently competes with in Schutzhund and Agility.

PHILOSOPHY

Jacki launched K-9 Friends and has expanded the range of people and dogs whose lives she intersects with. Jacki is striving to enrich the lives of pets by training and educating the people they live with. Her goal is to have pets be treated as a member of the family. With Jacki's love and passion for animals, it was only a matter of time for K-9 Friends to take off here in Florida. Jacki uses positive reinforcement training methods to help enhance your relationship with your dog and helps create positive associations and reduce frustrations common with dogs that don't know how to fit in with your pack.

DOG WALKING SERVICES:

With so many people working long hours, many pets are stuck at home alone with a sedentary lifestyle. We are able to come to your home for a mid-day break for your four legged couch potato. Mid-day breaks are also great for puppies and young dogs who need to practice their simple obedience commands or who just need a break to release some energy. It's also a big help with house training.
